

2020 EXHIBITOR PREVIEW

COMMUNITY – COLLABORATION – INNOVATION

WEEK OF JUNE 15, 2020

Community – Collaboration – Innovation

In this time of need, **United Fresh LIVE!** is a way to bring the entire fresh produce community together, to learn together, to create value together, and build our future together.

While citizens of the world are sheltering in place and avoiding physical connections, our industry must go on to feed the world.

We need a place to come together to share experiences, to learn new ways of doing business, and explore the innovations that will drive our industry to future success. United Fresh LIVE! delivers the opportunity to meet those challenges.

#UnitedFreshLIVE

EXHIBITOR LISTING

4EARTH FARMS - BRONZE

We are a vertically integrated grower, packer and distributor of organic and conventional fruits and vegetables. We have built our business by listening to our customers and executing on our promises. People, Produce, Planet...we are 4Earth.

ABL SPA - GOLD

ABL is committed to the same values that have driven the company since day one. That means striving to go above and beyond to create innovative products, continually setting new industry standards, and offering the comprehensive setup, service, and support that our customers need to maximize the life and performance of their ABL products. Piloted by these values as we move forward, we are able to retain our cutting-edge engineering and high-level customer service as we continue to take our global brand to new heights – all while recognizing that at the core of everything we do are customers like you.

At ABL, we know what it takes to reach perfection. So we ensure that every stage of your operation is empowered to be the best it can be.

With turnkey solutions for dependability and control. Through a consultative approach to service and setup. Not to mention innovation that's built around every variable, every need, every unexpected circumstance.

We bring quality and consistency to the forefront. Boost productivity through the roof. We set the perfect conditions in motion, so you can feed your success.

Because when potential is in season, you harvest the opportunity.

EXHIBITOR LISTING

APEEL – GOLD

Apeel Sciences is fighting the global food waste crisis by utilizing nature's tools to prevent waste in the first place — a sustainable approach to the world's growing food demands. The company's plant-derived technology helps USDA Organic Certified and conventional fresh food growers, suppliers, and retailers maintain produce quality and extend shelf life, which minimizes food waste from the farm to the retail shelf to the kitchen table.

A green graphic for the Apeel booth. It features a winding line that starts from a clock at the top right, goes down to a tree, then left to a sun, then down to a farm with a barn and silo, then left to a person with a shopping cart, and finally up to a leaf. The text "At Apeel, we believe a stronger supply chain starts with stronger relationships." is in white and green boxes. Below it, "Visit our booth to learn how we can partner to fight food waste with benefits throughout the supply chain." is in white. The Apeel logo and "Learn more at Apeel.com" are at the bottom left.

At Apeel, we believe a **stronger supply chain** starts with **stronger relationships.**

Visit our booth to learn how we can partner to fight food waste with benefits throughout the supply chain.

CHELAN FRESH

Rockit™ Apples are not typical apples, and we don't consider them to be. They're the first deliciously sweet apple that's naturally grown to be the perfect size for kids and the kid in everyone.

FEATURED PRODUCTS SHOWCASE

CHIQUITA

At Chiquita, Conventional bananas are sustainably produced and meet the Class Extra standard while most of the market is not Class Extra. This is one of the reasons while consumers prefer Chiquita bananas, in a recent independent survey, people indicated that they prefer the taste of Chiquita bananas by more than 2 to 1 over the next leading brand. Class Extra bananas are synonymous to superior quality fruit because this quality standard has stricter tolerance of defects. They come from the upper part of the stem because of their good size fruit and excellent ripening attributes.

COOSEMANS DC INC.

Fresh Specialty, Ethnic, Tropical product as well as Fresh Herbs package in many different offerings. Our value added line inclusive of Over Wrap Vegetable Trays, Fresh Herbs, Dried Fruit and Mushrooms, Meal Solution Kits as well as presently working on an Immunity Kit.

EMERSON

The newest addition to Emerson's full suite of tracker products, the GO Real-Time 4G/Cat-M Tracker helps ensure access to critical cold chain data in a dynamic and changing cellular landscape.

FOX PACKAGING/FOX SOLUTIONS

Fox Solution's Pouch Bagger is designed with efficiency and compatibility in mind. Its unique design reduces product overfill with precision weighing and automatic bagging and can be integrated into existing equipment lines.

GLEESON CONSTRUCTORS & ENGINEERS, LLC

Construction- Engineering-Design (architectural, refrigeration, vapor barrier, civil and site, mechanical, value, structural, electrical, process), Facility Layout and planning, Product Flow Evaluation, scheduling and estimating.

FEATURED PRODUCTS SHOWCASE

GRIMMWAY ENTERPRISES, INC.

Organic rainbow carrot chips combine convenience with character to offer snack-sized bites in a kaleidoscope of colors and are the perfect match for your favorite dips.

HEAT AND CONTROL, INC.

For wet leafy greens, the CCW-RV-214W-1S/70-WP with optional Rotary Sweeper eliminates manual product distribution and improves weigher efficiency (includes a 35° sloped vibratory dispersion table with rotary sweeping fingers).

KWIK LOK

Introducing the Eco-Lok. Eco-Lok is one piece of an industry-wide opportunity for responsible environmental stewardship. The sustainability your customers expect meets with the Kwik Lok performance that has set the standard in the bag closure industry for decades.

The proprietary technology from BioLogiQ used to make Eco-Lok converts plant-based carbohydrates, such as corn and potatoes, into the NuPlastiQ® material that is manufactured into Eco-Lok bag closures. Using a 100% natural, renewably sourced plant-based resin that requires less fuel to manufacture, NuPlastiQ® helps reduce greenhouse gas emissions and overall material use. They are completely interchangeable with our previous closures and compatible with your existing Kwik Lok machinery.

LAKESIDE PRODUCE

Tomatoes on The Vine and Cocktail on The Vine. Lakeside is committed to operating mindfully, with extra care ingrained in everything we do – from our products to our packaging. Not only is this packaging plastic-free, but our tomatoes were grown with recycled water and pollinated naturally with bees. It's just one of the many ways we continue to grow with care.

LITEHOUSE, INC.

Litehouse Homestyle Ranch, voted #1 best tasting ranch by consumers!

MASTRONARDI PRODUCE

These mesmerizing peppers will take your taste buds to a tropical paradise. Aloha™ peppers are as colorful as they are flavorful, create beautiful island-inspired dishes, any time of the year.

MUCCI FARMS

Mucci Farms' Blended Flavours™ tomatoes are now available in an innovative paper top seal format, making the entire package 100% recyclable!

MULTIVAC, INC.

MULTIVAC and Yamato Corp have partnered to create a start to finish, automated, fully-integrated leafy greens traysealing line to maximize output, while reducing the number of suppliers and points of contact.

NATURESWEET, LTD

Our NatureSweet® D'VINES™ are kept on the vine to give them time to ripen naturally and deliver that sweet taste you would expect from your backyard garden only delivered year-round.

NATURIFE FARMS

Healthy, convenient, indulgent, Naturipe Snacks' Bliss Bento combines fresh-picked fruit with delicious specialty ingredients in one portable package. A treat that nourishes and satisfies with flavor, fiber and Vitamin C.
